

DCEO ILLINOIS ENERGY NOW

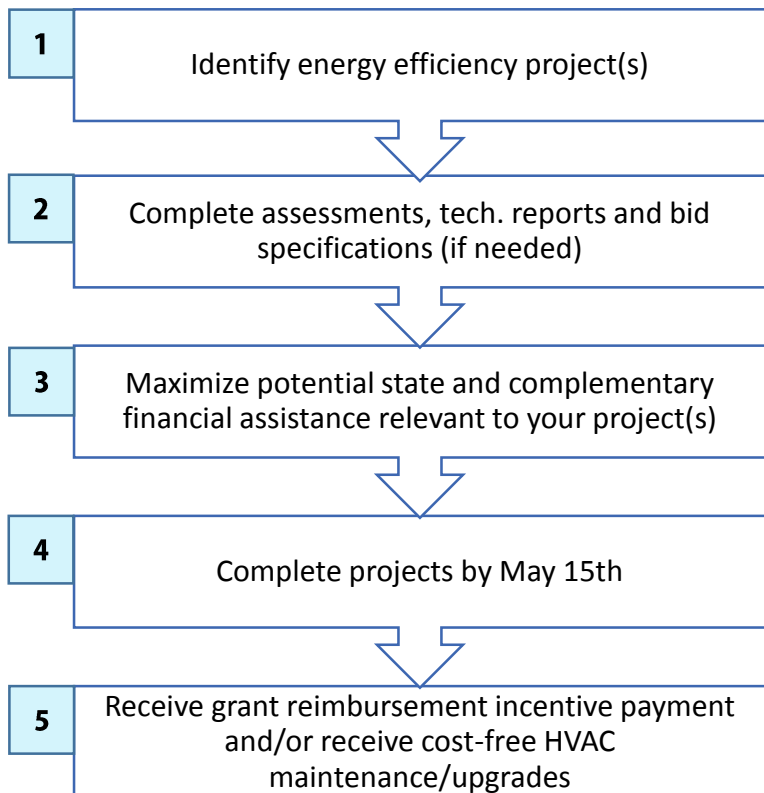

Public Sector Energy Efficiency Program

Illinois Energy Now (IEN) is a suite of energy efficiency programs administered by the State of Illinois that provides millions of dollars in rebates to public facilities that make large scale equipment improvements to their electric and natural gas systems.

This funding supports several IEN programs including the Smart Energy Design Assistance Center (SEDAC), Energy Resource Center (ERC), and Midwest Energy Efficiency Alliance (MEEA). Learn more about these programs and energy efficiency incentives at ilenergynow.org.

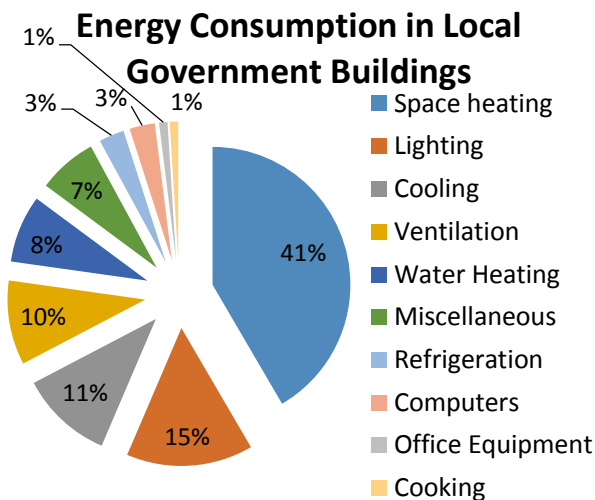

Additionally, this funding supports the Public Sector Energy Efficiency Program that is administered by the Metropolitan Mayors Caucus through DCEO's Public Sector Energy Efficiency Aggregation Program. The Metropolitan Mayors Caucus has partnered with 360 Energy Group to administer this funding for IEN to help local governments update and retrofit public facilities that will improve energy efficiency and save money.

Public sector grant reimbursements can be up to \$300,000 per facility location for projects including but not limited to HVAC system tune-ups, indoor and outdoor lighting upgrades, and heat distribution upgrades. Select HVAC system maintenance and upgrade projects may also be completed at no direct cost to the public agency.

Public Sector Energy Efficiency Program Administered by the Metropolitan Mayors Caucus 2011-14 Data

308	Projects Completed
\$4,312,158	Incentives Delivered
\$1,344,187	Annual Energy Costs Saved
9,991,300	kWh saved
565,474	Therms saved
23,555,255	Pounds CO2 avoided
3.49 years	Average Payback

September 30, 2014: Early bird deadline for all energy efficiency Project Proposals.

October 31, 2014: Completed projects are eligible for a 10% bonus.

February 14, 2015: Completed projects are eligible for a 5% bonus.

DCEO ILLINOIS ENERGY NOW

Public Sector Energy Efficiency Program

Rolling Meadows Park District

Lighting retrofits and new fixtures were installed throughout the Nelson Sports Complex. The Park District received an incentive of \$23,681 for this project.

Project Costs	\$33,262
Incentives Received	\$23,681
Savings/Year	\$12,166
Annual kWh Savings	114,782
Simple Pay Back	0.79

Oak Lawn Street Lighting

New LED fixtures were installed onto the street lighting poles throughout the Village of Oak Lawn. The village received \$138,138 in incentives for this project.

Project Costs	\$393,635
Incentives Received	\$138,138
Savings/Year	\$33,566
Annual kWh Savings	430,335
Simple Pay Back	7.61

Schaumburg Township District Library

Mechanical upgrades were implemented. This included a building automation system, control system upgrade, air handler unit sealing, supply air ductwork insulation, and exhaust/intake ductwork re-design. The library received \$158,518 in

Project Costs	\$279,513
Incentives Received	\$158,518
Savings/Year	\$49,999
Annual kWh Savings	449,579
Simple Pay Back	2.42

Community Unit School District 95: Fox Elementary and Middle School South

Lighting retrofits and fixtures with florescent lamps and electronic ballasts were implemented throughout school facilities. The school district received an incentive of \$88,823 for this project.

Project Costs	\$138,825
Incentives Received	\$88,823
Savings/Year	\$54,560
Annual kWh Savings	186,109
Simple Pay Back	0.92
