Jan. 5, 2021

Dear Environment Committee
and Energy Subcommittee,

Let's look forward to a hopeful
and sustainable year in 2021.

Thank you for your active
participation in the
Environment Committee. To
get off to a strong start in the new year, we are refreshing a bit.

1. First, our January meeting will be in our popular *community roundtable* format. All communities are invited to virtually present one (or more) of their community sustainability initiatives that is particularly successful, innovative or needed by other communities. All initiatives should relate to the consensus goals of the [Greenest Region Compact](#).

- Meeting date: Tuesday, January 19, 2021
- Time: 10-11:30 a.m.
- Register: **Please register in advance for the Zoom meeting [here](#).**

If you are able to share your community's sustainability work at this meeting, please contact Cheryl Scott at cscott@mayorscaucus.org by the end of the day on Tuesday, Jan. 12. The amount of time available for presentations depends on the number of communities presenting.

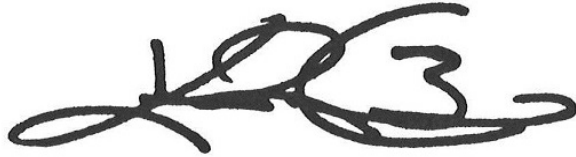

Presentations need not be formal, but slides or other media can be helpful. All input is welcome and your experience will likely benefit another community, so ***please share***. We also invite participants to seek assistance from the 'roundtable' by identifying needs and projects that are not so successful. Additionally, this roundtable discussion will help the committee identify future meeting topics and focus areas.

2. Help us plan upcoming Environment Committee meetings by completing this [quick survey](#). You can suggest meeting topics, comment on scheduling, and

give us feedback on past meetings and our website.

3.Finally, we'd like to make sure our committee list is up to date and assure that we have the right municipal representative on the list. Your community may be contacted to verify your representative and your continued interest.

Thank you, and we hope to see you at our next meeting!

A handwritten signature in black ink, appearing to read 'KB3', with a stylized flourish at the end.
