At least four energy bills are now under consideration by the Illinois General Assembly. These bills will have a significant impact on the nature of power generation, renewable energy and energy efficiency, and transportation electrification. The bills also focus on equity and a just transition to clean energy that protects workers and creates jobs.

Please join us for a briefing and discussion of how these bills will impact municipalities and our constituents. We will be joined by proponents of each of these bills:

A. **Path to 100; SB1601, HB2640**  
*Illinois Solar Energy Association*

B. **Climate Union Jobs Act; SB1100, HB1472**  
*IBEW Local 176*

C. **Clean Energy Jobs Act (CEJA); HB0804, SB1718**  
*Natural Resources Defense Council (NRDC)*

D. **Consumers and Climate First Act; SB2896**  
*Office of Governor J.B. Pritzker*

The links above connect to informational websites, fact sheets, and the full text of the bills.
