

OVERVIEW

This spreadsheet includes the identified low-income and disadvantaged communities (LIDACs) in the Chicago Metropolitan Statistical Area for the U.S. EPA Climate Pollution Reduction Grant program Priority Climate Action Plan. The list shows the block group ID (column A), and then the municipality (column B), county (column C), and state (column D) in which the block group is located.

PLEASE NOTE

Block group IDs may appear multiple times on this list. This happens when an identified LIDAC block group spans multiple places. For example, the block group with the ID 171978802022 appears twice, because it is partially located in both Bolingbrook and Romeoville. Importantly, this means that the total count of LIDAC block groups in this spreadsheet is higher than the number of unique LIDAC block groups. Additionally, this means that when filtering for a particular county (column C), the filtered rows may include duplicate block groups.
