

OUR SOLUTION

Most people are not aware of the contamination issue, and how they are contributing to it

Better education is desperately needed. It begins with establishing a line of communication.

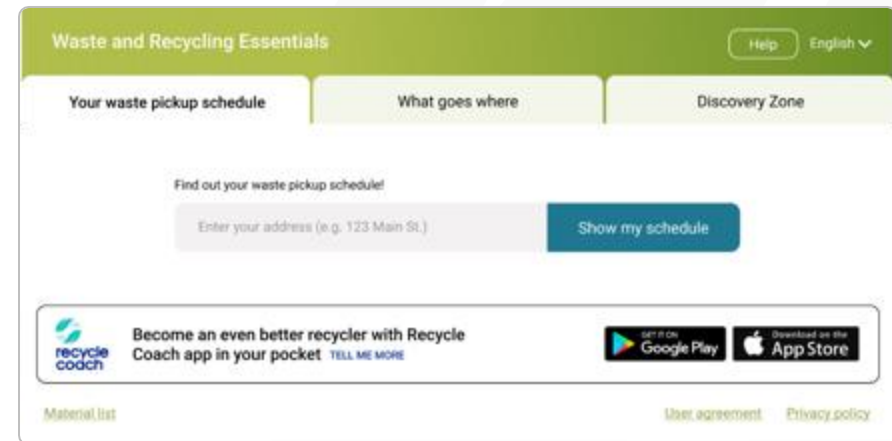

Mobile app

Residents download it because it makes their household operations simpler

Web app (widget)

Leverages municipality's website traffic to increase resident participation and eliminate user acquisition costs

An extended partnership between IL EPA and Recycle Coach gives every county, municipality, town, village, and ultimately resident, in the state access to a robust digital tool that provides schedule reminders, materials searches, and hyper-local education

IL Onboarding and Implementation
