

Save Money with the ComEd Whole Home Electric Offering!

ComEd is excited to offer an opportunity for qualifying income-eligible customers!

Your Journey Starts Here

Receive new heating and cooling systems and appliances at little or no cost. The Whole Home Electric offering will help replace old or inefficient electric heating equipment with high-performance electric systems.

Upgrading will help you increase comfort at home, lower carbon emissions and improve air quality across our communities all while reducing your overall energy costs.

Check out the back page for more info on the benefits of this offering!

How to Get Started

Participation is easy and doesn't cost a thing:

- **Call 779-774-7680 to confirm your initial eligibility and schedule an appointment.**
- **Meet with a Whole Home Electric representative for a full assessment of your home to confirm your eligibility and recommended upgrades.**
- **Receive a project plan to convert your existing electric heating and cooling system to a high efficiency air source heat pump, at no cost to you. The upgrades may also include weatherization services if applicable.**
- **Once you accept your customized plan, a ComEd Service Provider will install your home's FREE energy efficiency upgrades.**

Save Money with the ComEd Whole Home Electric Offering! (Continued)

Benefits

- **Save Money and Energy.**
 - Air Source Heat Pumps (ASHPs) transfer heat from outside air to indoors in winter and vice versa in summer, minimizing electricity use, leading to lower energy bills.
- **Year-round Comfort..**
 - ASHPs provide heating and cooling, ensuring comfortable indoor temperatures throughout the year.
- **Easy Installation.**
 - Ducted ASHPs can integrate with existing ductwork, making the installation process easy and flexible. Ductless ASHPs are suitable for a variety of home types, and the installation process is easy with no ductwork needed.
- **Reduced Carbon Footprint.**
 - ASHPs lessen reliance on fossil fuels, reducing carbon footprints and promoting sustainability.
- **Increased Home Value.**
 - ASHP installation can enhance home value due to energy efficiency and eco-friendly features, attracting potential buyers.
